### DESCRIPTION

The **Spectrum 2 Convertible** multi color LED flashlight is designed for applications where white light illumination is not always desired. The 1 1/2 watt single chip LED has red, blue and white emitters. Colors are selected by a rear-mounted four position button switch. The Spectrum's aircraft grade aluminum body is machine detailed for a comfortable nonslip grip and handsomely finished in bright nickel. Two standard AA type batteries will power it for three hours. The Spectrum comes complete in a gift box, with wrist lanyard, two AA and one CR123A. A black cordura holster is available as an accessory.

Spectrum 2 converts for use with two AA batteries or a single CR123A.
