

Dongle Munkey

Dongle Security and Protection Device

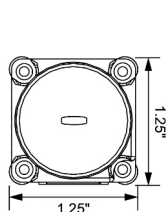

A custom-designed enclosure allows you to protect and secure a USB dongle needed for show critical software. Dongle Munkey is designed to easily fit in a gig bag or tool case when you are on the go and has a Kensington lock slot built in to secure your dongle in place at a site or for a permanent installation environment. Dongle Munkey has 3 different exterior port options that can be specified at purchase to maximize compatibility. Add a layer of protection to help prevent damage or theft of a dongle and protect your investment.
