

ROSCO SCENIC SETS

SCENIC KITS FOR PRACTICE & EXPERIMENTATION

All artists need a way to experiment and hone their craft. That's the purpose of Rosco Scenic Sets. Working with a panel of professional scenic artists and professors, this range of practice kits was developed to provide colors and materials for painters to test and explore different scenic techniques. Each Scenic Set contains four 6 oz. jars of Rosco scenic paint or coating materials that scenic artists can use to practice color mixing, experiment with washes & glazes, or create different scenic treatments like skies, dirt and foliage.
