**China Fleet 7"** #55-60007 .... **$99.10**

CHINA FLEET

Prolyte VERTO Truss

PROLYTE VERTO TRUSS SYSTEM

Verto truss is a revolutionary system, making truss connections fast, silent, and safe. **Verto truss is based on an innovative principle of truss connection where the sections are joined by a rotating coupler system.** This system has great advantages over traditional systems. The name Verto is derived from Latin, meaning to turn or to turn around and that is exactly how this coupler works. A simple turn of your wrist connects the truss sections, saving significant setup and tear-down time. Additionally, Verto truss goes together quietly, with no truss bolts, nuts, or pins to mess with. A red safety ring is visible when the connection is not fully closed, offering an easy identifier for safety checks.

Verto truss brings a fresh perspective on truss assembly and is a game-changing cost-saver for regular truss users.

Give us a shout to discuss a
Verto truss system quote for your venue!

Rigging and Related

PIPE CAT HANGER

PIPE CAT is a smart solution to hang soft goods quickly and easily from a pipe batten. The bottom piece clips through the grommet at the top of the curtain, while the top piece is simply pushed up onto the batten so the "ears" clip around the pipe. When weight is applied to the bottom section of the PIPE CAT, it holds on tighter, while if pressure is applied to the grip section underneath the pipe, the PIPE CAT easily pulls away from the pipe. With PIPE CAT, swapping out soft goods on stage is a breeze.

Pipe Cat Hanger #04-PC001 .... **$8.75***

*Special pricing through April 30th 2020

GRIPLOCK GRIPPERS

Using wire rope, you can easily hang objects, permanently or temporarily, with Griplock Grippers. Simply insert wire rope and slide Gripper into position. Plunger allows easy release and repositioning. Immensely handy!

LEG-A-MATIC BRACKETS

This simple yet indispensable piece of hardware creates a corner pocket for platform legs. The bracket bolts to platform frame with standard 3/8" bolts. **The original Leg-a-Matic holds a 2x4 leg using standard wood screws. The Leg-A-Matic II accepts 2" OD pipe or 2" square tubing.** Both brackets are made from high grade 6061-T6 aluminum, strengthening the corner joints on your platforms. Saves time, saves money, adds security and strength! **Note: Brackets do NOT relieve the need for cross bracing legs.**

Leg-a-Matic

LogiCue Cue Light System

LC12 Controller

LOGICUE CUE LIGHT SYSTEM

LogiCue is a digital cue light system that makes cueing actors and production crew easy and accurate. Multiple channels of control gives you fantastic flexibility in planning your cueing needs. Sets up quickly using standard microphone cables. The LC12 (12-channel) and LC6 (6-channel) controllers both feature self-test on power-up, tactile "clicky" buttons, simple on/off or red/green configuration options, digital readout of control address (on cue lights themselves), and 2-way acknowledgement

QL2 Cue Light

(yes, we are here and saw the standby light). Compact control surfaces consume minimal space at your stage manager position. Cue lights (QL2) can be daisy chained or connected using "Y" cables. Max cable length in system should be 1000' or under.

LC12 Controller (above): Updated model features a DMX output for triggering DMX devices such as dimmers, relays, etc. New form factor allows for desktop operation or rack-mounting without the need for additional hardware!

LC6 Controller

LC6 Controller (right): New offering! 6-channel controller in a compact desktop format.

LogiCue LC12 Controller #25-260001 .... **$1079.00**
LogiCue LC6 Controller #25-260006 .... **599.00**
LogiCue QL2 Cue Light #25-260002 .... **175.00**

LED Lighting Fixtures

CHAUVET OVATION CYC

The **CHAUVET Ovation CYC 1 FC** is a sleek and lightweight CYC that delivers a wide, smooth field of light with significant reach. Completely convection cooled, the unit is ideal for applications where silent operation is critical. Ovation Cyc 1 FC features the advanced RGBAL color-mixing system found in other CHAUVET Ovation full-color units to render nearly any color with tremendous realism and saturation. Smooth blending between fixtures is readily achieved. Given the low profile, it can also be used effectively as a footlight. This versatile fixture has an integrated kick stand and included glare shield that can shape its throw. It also features omega bracket for use with pipe clamps or couplers. **We have seen this unit up close and were impressed with its output, blending, diminutive size, and build quality.** The CHAUVET Ovation Cyc 1 FC is an excellent value.
CHAUVET Ovation Cyc 1 FC #67-C0121..**$899.99**

ALTMAN AFS-700 LED FOLLOWSPOT

The Altman AFS-700 LED Followspot is a lightweight, 780-watt white LED manual follow spot packed with powerful features. The compact extruded aluminum design allows for discrete placement while offering powerful light output at distances over 200 feet. It offers a motorized precision zoom system (DMX or locally controlled) that delivers a 7° to 13° beam spread. Each AFS-700 LED follow spot includes an on-board controller, allowing for simple button press color control and fader control of intensity, strobe, color correction (CTO), iris, focus, and zoom. **Each of these features can be controlled from either the AFS-700 controller or via DMX**.
Altman AFS-700 LED Followspot #42-110007...**$4000.00**

Altman AFS-500 also available.

HIGH END SYSTEMS SOLAPIX

High End Systems' SolaPix fixtures take the traditional concept of a pixel wash and pushes it to its maximum potential. The bright and punchy output will envelope your production with beautiful, saturated color. Additionally, when you need to add a spark of creativity, the fixtures' narrow zoom, FleX Effects macros, and pixel-controlled face gives you a wide variety of looks. Both units feature robust 40W Osram Ostar RGBW LEDs (7 in the Solapix 7; 19 in the Solapix 19) rated for 50,000 hours, superb zoom range of 4.5° to 60°, TRUE1 detachable pigtail, and more.

SolaPix 7 w/insert #39-21044 .... **$3150.00**
SolaPix 19 w/insert #39-21046 .... 5300.00

Please visit our website
for the complete High End lineup!

ELATION FUZE PROFILE

The FUZE PROFILE is an automated LED fixture with framing shutters at an exceptional price point. It is designed for theater, television, and a wide array of other lighting applications. The 92 CRI engine uses a 5-color homogenized LED array consisting of Red, Green, Blue, Mint, and Amber sources. The carefully tuned LEDs ensure accurate color reproduction while delivering a powerful output of over 9,000 lumens. Virtual color temperature, magenta / green adjustment, plus color gel emulation provide the designer with immediate access to the impressive color possibilities. A rotating gobo wheel, fixed gobo wheel, animation wheel, frost, prism, and iris round out the comprehensive feature set in this compact, quiet, and lightweight fixture.

Elation Fuze Profile #39-E1006........................ **$4396.00**

TECHNICIAN TOOLS AND GADGETS

ROSCO MIXBOOK

MIXBOOK is a digital swatchbook that enables users to easily explore the performance of their color choices. It is a useful tool for educators and students learning about color and its use in theatre, studios, etc. Using the myMIX app and a Bluetooth connection to the MIXBOOK, a user can bring up most Rosco colors including Roscolux, Cinegel, and others. You can test various "white" color temps, mimic unique sources like sodium vapour, and more. Users can generate desired colors by adjusting hue, saturation, and intensity levels, or by selecting xy values. It is a fantastic all-around tool for testing colors without the need for a separate fixture, gel cuts, etc. Includes protective pouch!

Rosco MIXBOOK #67-60036.........................**$94.00***

*Special pricing!
Valid through April 30th 2020.

DMXCAT

DMXcat by City Theatrical is a powerful, multifunction, DMX test tool and controller that works in tandem with your smartphone. Via Bluetooth, the DMXcat interacts with a series of apps (Android or iPhone) that can perform as DMX controller, fixture tester, RDM controller, DMX tester, RF spectrum analyzer (for Wi-Fi networks), and more! An indispensable tool.

DMXCAT #36-E70001..**$331.50**

CABLE MUNKEY

Cable Munkey slips onto standard battens or truss for a quick and easy way to run cable. Separate hooks for data and power. Integrated mousing points. Great for temporary or permanent use. Greatly reduces tieline needs.

Cable Munkey #27-9MUNKEY..............**$6.80***

**Special through April 15th 2020!
Regular price is $8.00 each.

MicroCom Intercom by Pliant

MICROCOM WIRELESS INTERCOM

MicroCom offers a simple and affordable professional wireless intercom solution for any budget. MicroCom provides single-channel, full-duplex intercom for up to 5 users, without the need for a base station. MicroCom also provides for unlimited listeners, providing great flexibility for applications where high-quality audio, excellent range, and low-cost are essential. Along with a wide selection of headsets, MicroCom is ideal for theaters, houses of worship, corporate events, schools, and a wide array of other applications. The system features small, water-resistant beltpacks and provides clear sound, ease-of-use, and long-life battery operation. Built well enough for demanding professional use, the system is very simple to set-up and use.

MicroCom 900MHz Beltpack #53-T0PMC900M **$360.00**

CREWCOM INTERCOM BY PLIANT

CrewCom is an innovative approach to professional digital wireless intercoms, designed to handle almost any application from simple out-of-the-box solutions to large-scale designs for complex environments. It is a versatile communications solution built on a highly scalable platform in which a family of products utilizes a proprietary network. **CrewCom is ideal for overcoming communication challenges such as tough RF environments, inconsistent coverage, and total users limits that many experience with traditional wireless intercom systems.**

CREWCOM CONTROL UNITS

The CrewCom Control Unit (CU) is the foundation of the CrewCom system. It establishes the CrewNet-based infrastructure while also providing external connections to common established intercom systems. The CU contains no radio and is frequency agnostic. It can control and monitor any device across CrewNet. In tandem with CrewCom Radio Transceivers, each CU supports 50 Radio Packs (18 Normal mode and 32 High Density mode) across all available RF bands.

CREWCOM RADIO TRANSCEIVER

This transceiver unit puts wireless coverage specifically where needed, decentralizing the radio components from the typical base station. It serves as an access point, enabling radio communications with CrewCom Radio Packs.

Using CrewNet as a backbone, a large number of RTs can be positioned on the network over a wide coverage area through direct connection to a Control Unit.

CREWCOM RADIO PACKS

Digital wireless beltpack for connecting mobile users to the CrewCom system.

Along with full-duplex, multi-conference communications, the Radio Pack combines flexible conference access and customizable controls for a highly functional, yet familiar user experience
Visit our website for full CrewCom details!

Atmospheric Effects

CITC XF-3500 FOGGER

The XF-Series is the new range of professional grade fog machines from CITC. The powerful XF-3500 fog machine is capable of outputting up to 35,000 CFM, the highest in its class. XF-3500 comes standard with X-Cradle Impact Armor, a proprietary design made in the USA from aircraft grade materials, which protects machines from drops. With full-featured digital control technology (including DMX) and CITC's precision "smart fog" fluid line-up, the XF-Series delivers the most precisely timed fog anywhere.

CITC XF-3500 #19-0100501.....................**$2815.09**

ANTARI ICE

Antari ICE produces the ever popular, low-lying, "heavy" smoke of a dry ice machine without the inconvenience of dry ice or the potential hazards of CO2-laden smoke. Place up to 10 kg of ice into the ice chamber to cool the smoke produced by the 1000W smoke machine, then watch the floor disappear in ankle deep smoke. 10 kg of ice placed in the ice chamber can last up to 80 minutes with constant use. DMX on board or use timer remote. Drainage pump can be activated manually or automatically for optimum convenience.

Antari ICE #19-0000ICE **$775.00**
Antari FLL-4 Fluid #19-000FLL4.... **27.00**
